KGK Group

A Legacy of Excellence

KGK Group's journey began in 1905, and evolved from a gemstone trading enterprise into a global conglomerate. Today, our 15,000-strong team spans Asia, North & South America, Europe, and Africa, covering every aspect of the gems and jewellery industry with our vertically integrated mines-to-brands approach.

Stones

Shaping the World with Passion and Commitment

Embarking on a journey centred around gemstones, our passion and commitment have fuelled our growth and expansion into diverse sectors, such as real estate and, most recently, quartzite. As we continue to flourish, our skilled team of professionals drives our global presence, consistently setting new standards in each industry we embrace. Rooted in a rich heritage of excellence and innovation, we persistently diversify our portfolio and ascend to unprecedented heights across mining, gemstones, diamonds, jewellery, retail, real estate, and natural stones.

Visionaries at the Helm

Mr. Navrattan Kothari

A Leader Inspired by Life & Humanity

For over 58 years, Mr. Kothari's leadership has transformed the global landscape of jewellery trading and manufacturing. Guided by trust, integrity, and corporate responsibility, he has steered KGK into a multinational company that operates with world-class standards and state-of-the-art infrastructure.

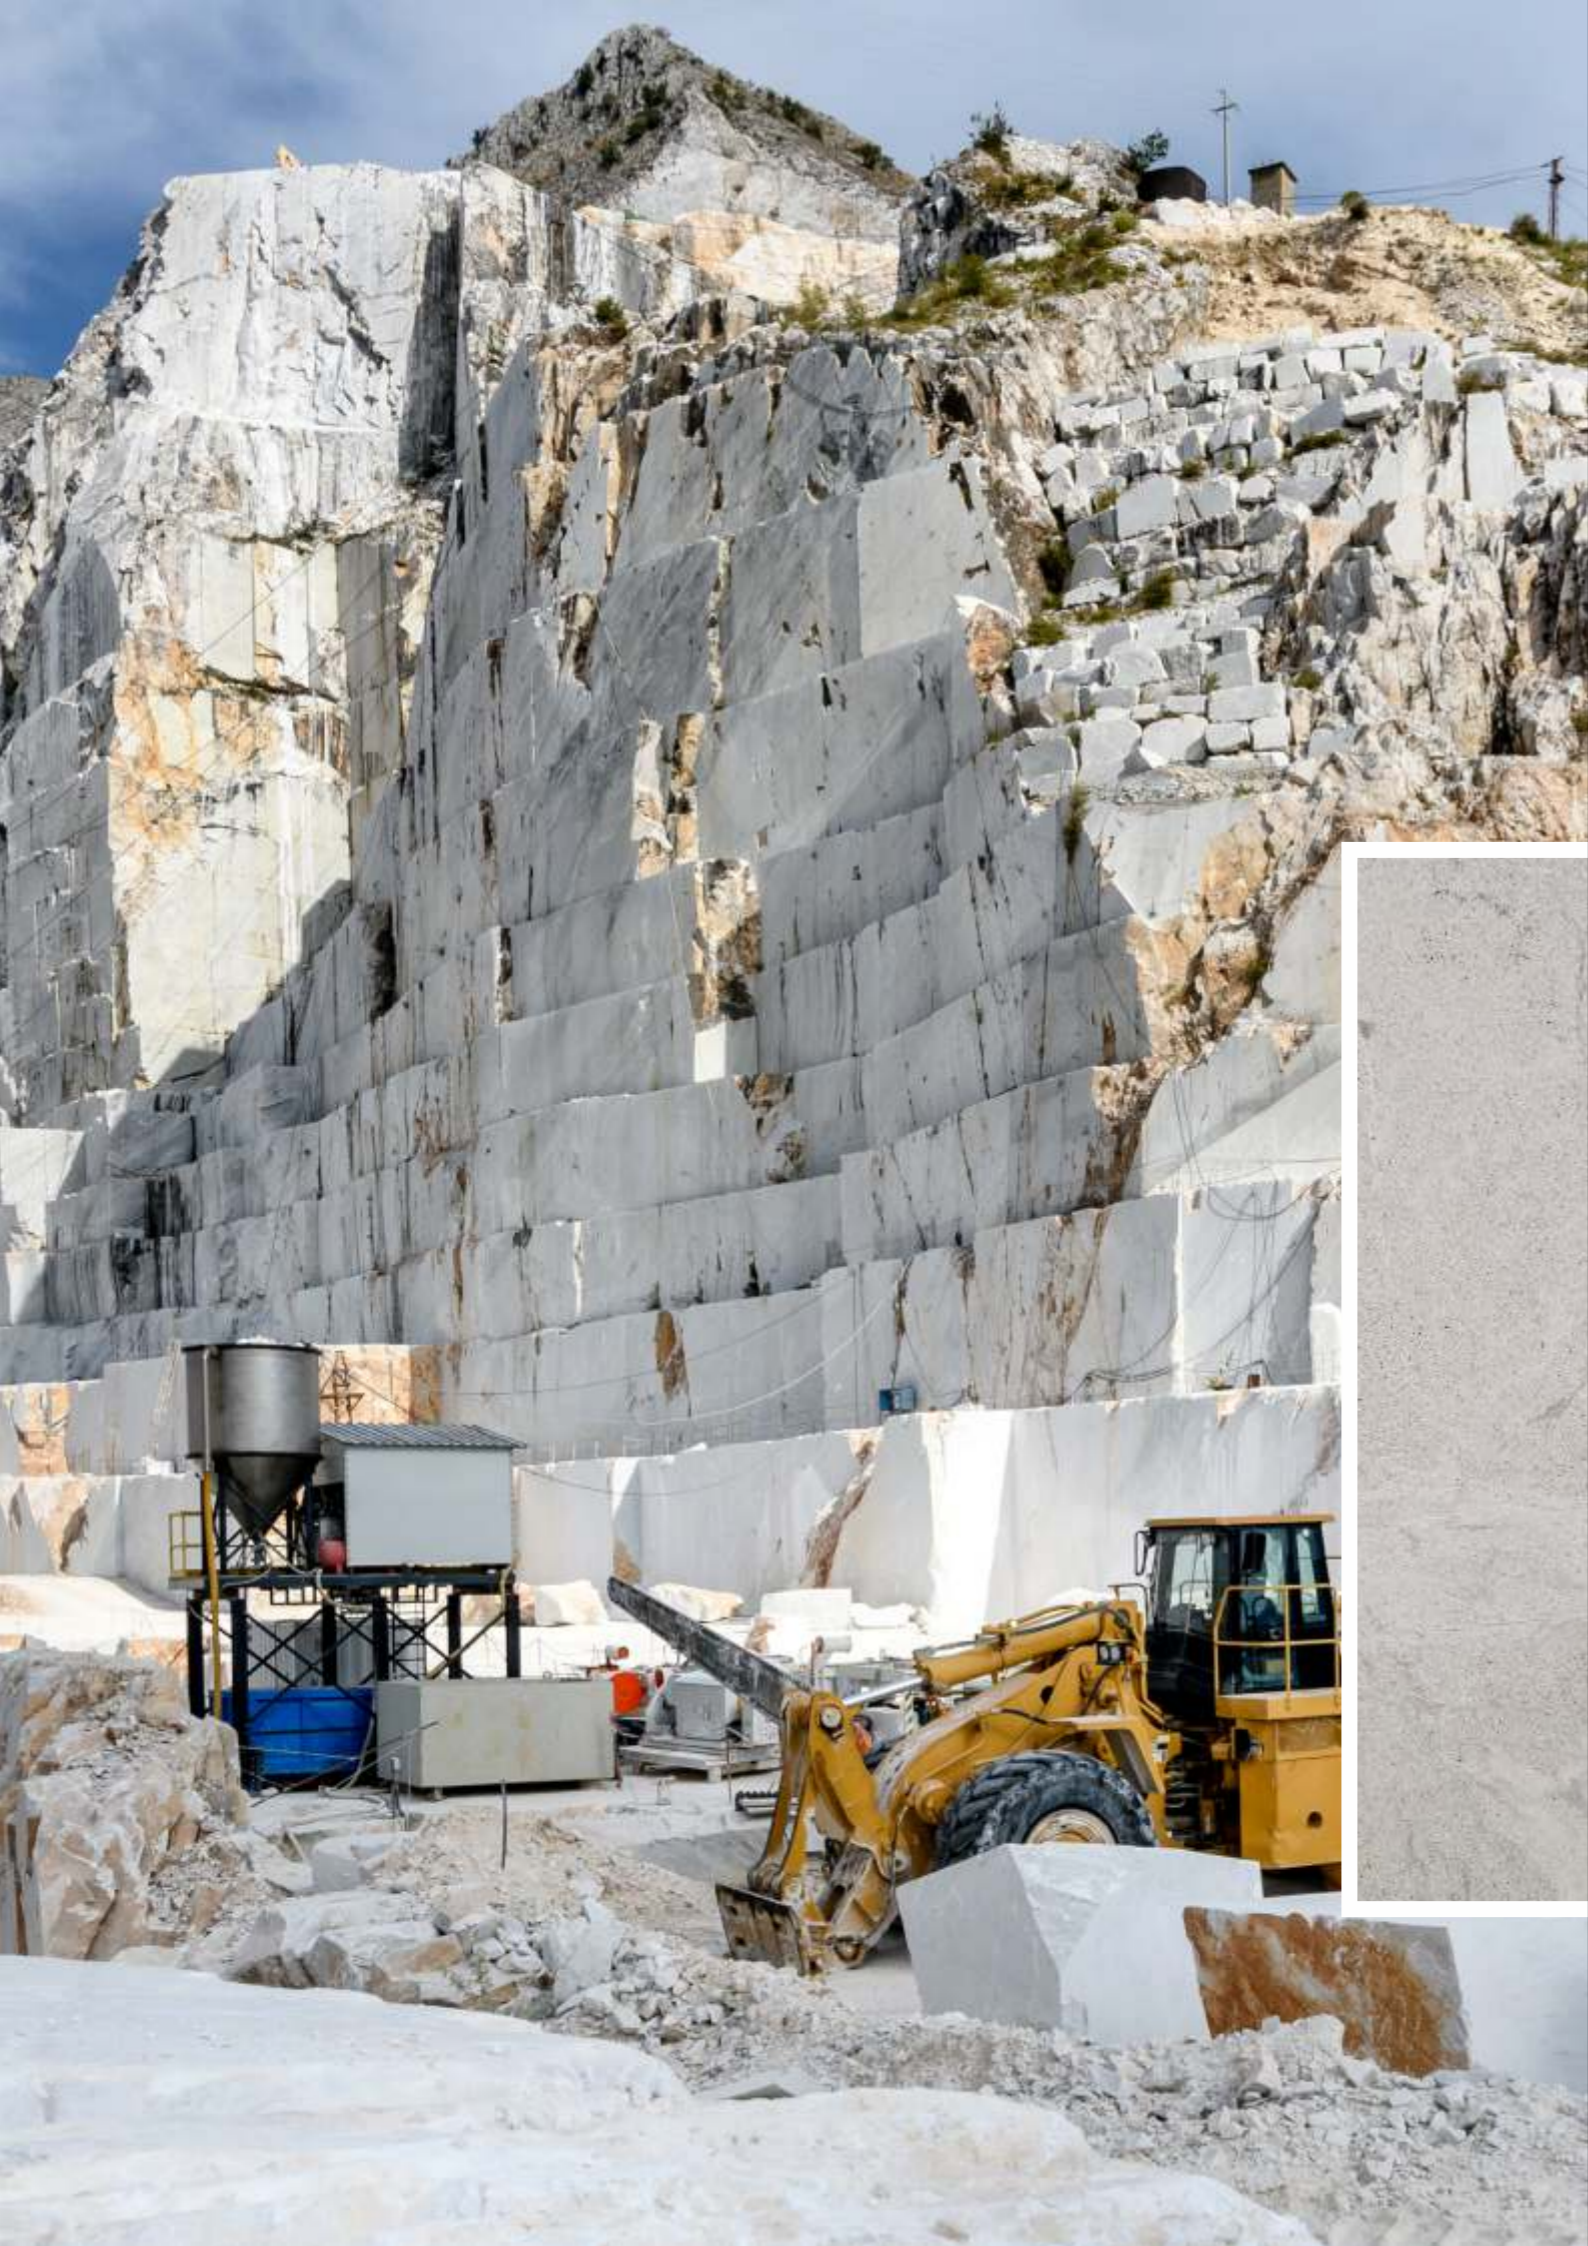

Mr. Sanjay Kothari

The Catalyst of Diverse Business Frontiers

Since 1986, Mr. Sanjay Kothari has led KGK's expansion from mining to manufacturing, marketing, distribution, and retail in gemstones, diamonds, and jewellery. His vision also extends to the real estate domain, shaping KGK Realty into a unique, elegant, and superior brand that champions innovation in every project.

KGK Stones

Redefining Natural Stone Luxury

Our latest venture, KGK Stones, brings our century-old expertise in mining, manufacturing, distribution, and retail to the world of natural stones. With a strong commitment to trust, integrity, and customer satisfaction, we offer unparalleled quality in quartzite and other natural stones.

KGK Mines

Unearthing Nature's Treasures

KGK Mines produces top-quality nonporous Quartzite in Rajasthan, which is superior in strength and thickness compared to granite and marble. The district boasts of abundant reserves of the finest quality of Quartzite in India. With our industrial mining methods and modern machineries, we operate multiple quarries. We use the cutting-edge technology of wire-saw machines to extract massive blocks of Quartzite from the mountain, cutting them from higher to lower layers. This technique not only ensures the safety of our workforce but also helps to conserve natural resources and boost productivity.

State-of-the-Art Manufacturing

At our large-scale stone processing plants, we create premium slabs, tiles, and customized sizes, blending the expertise of our skilled workforce with cutting-edge technology. Our commitment to automation ensures we maintain the highest quality standards while delivering products in a timely and cost-effective manner.

Precision Meets Perfection

KGK Stones fully automated manufacturing process (with Breton Italy Processing Plant) relies on the following state-of-the-art machinery to guarantee precision and efficiency in every project:

- ▶ Multi Wire Saw
- ▶ Grinding & Line Polish Machines
- ▶ Resin Line
- ▶ CNC Bridgesaw Machine
- ▶ CNC Water Jet

Embracing Automation

Bringing Luxury to Life

Quartzite is renowned for its exceptional resistance to abrasion, scratches, heat, absorption and chemical agents, making it a popular choice for both interior and exterior applications. Its natural durability ensures that your spaces retain their timeless appeal for years to come, with minimal maintenance required.

It has emerged as a symbol of sophistication and elegance. Boasting remarkable strength, durability, and low porosity, it is an ideal choice for various applications. Our offerings infuse your spaces with the captivating allure of natural beauty.

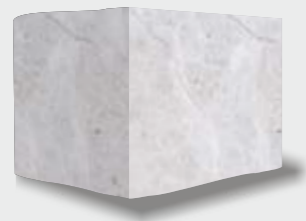

Collection

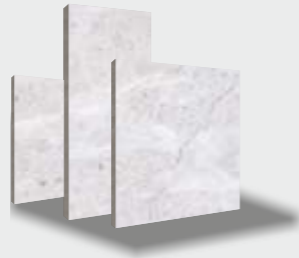

Our Offerings

Building for a Greener Future

Our Commitment to Sustainability and Social Impact

At KGK Stones, we prioritize sustainable practices in all aspects of our operations, ensuring our products contribute to a greener tomorrow. We recognize that our responsibility extends beyond the environment, and we are dedicated to improving the lives of the communities in which we operate.

Environmental Stewardship

We have implemented eco-friendly initiatives such as solar power plants, water treatment systems, and waste management strategies. These efforts minimize our ecological footprint and promote sustainable use of resources throughout our operations.

Healthcare and Community Wellbeing

The KGK Group conducts regular medical check-ups and eye camps for local communities, providing essential healthcare services to those in need. In addition, we offer financial aid to individuals facing hardship, ensuring access to healthcare and essential support.

Community Development

We actively engage with local communities to understand their needs and address their concerns. By investing in infrastructure and supporting local initiatives, we strive to create a positive and lasting impact in the areas where we operate.
